

ME Office Site	Contact	Rotation Time Frame	ME Office - Awardee requirements	Additional Opportunities/Exposure to:
Connecticut Office of the Chief Medical Examiner, Farmington, CT	James Gill, MD jgill@ocme.org	No rotations in July and August	Letter from residency program	Attendance at death scenes and observation of court testimony
Cuyahoga County Medical Examiner's Office, Cleveland, OH	Joseph A. Felo, DO jfelo@cuyahogacounty.gov	No rotations in July and August	Health insurance is responsibility of candidate.	Some staff pathologists have specialized training and/or board certifications in pediatric pathology, neuropathology, cardiac pathology and forensic anthropology.
DeKalb County Medical Examiner's Office, Decatur, GA	Gail Parker glparker@dekalbcountyga.gov	January - October	For a resident to rotate at our office, they would need a GA trainee medical license, a background check, CV, letter of recommendation from their residency program director, E-Verify, active medical malpractice insurance, and coverage for general liability insurance. Lastly, if they are a Canadian resident, they would need to have the appropriate visa.	The resident(s) would be exposed to numerous death scene investigations and would gain autopsy experience in both urban cases from DeKalb County and coroner cases from rural counties. Additionally, we offer over 40 on-site didactic lectures on forensic topics including toxicology, firearms, death certification, anthropology, etc.
Indiana University School of Medicine/Marion County Coroner's Office	Christopher Poulos, MD christopher.poulos@indy.gov	Fall/Winter	Prefer if they have insurance coverage from sponsoring institution (i.e. in case of injury).	
Maryland Office of the Chief Medical Examiner; Baltimore, MA	Stephanie Dean, MD deans@ocmemd.org	No preference	PLA with home institution and malpractice insurance covered by home institution	Statewide office with incredible variety and volume. Consulting resources (forensic anthropology, forensic neuropathology, cardiovascular pathology, and radiology) are also available. In-house toxicology laboratory provides for additional learning opportunities and a turn-around-time of 7-10 days.
Medical University of South Carolina; Charleston, SC	Nick Batalis, MD nbatalis@gmail.com	No rotations in July	Affiliation agreement, SC medical license, proof of adequate/active malpractice insurance	We have a rich, diverse caseload with cases referred to our office from across the state of South Carolina. Our faculty are engaged educators and we have a dedicated support staff to help with administrative tasks and the autopsy process. Being located within a large academic teaching hospital allows for consultations across pathology subspecialties and utilization of the clinical laboratory for ancillary testing.

ME Office Site	Contact	Rotation Time Frame	ME Office - Awardee requirements	Additional Opportunities/Exposure to:
New York City Office of Chief Medical Examiner (OCME)	Cynthia Harris, MD cyharris@ocme.nyc.gov	No rotations in July and August	The awardee will need to be swabbed to have their DNA on file, which is done once they arrive at our office. Otherwise no additional requirements.	CT imaging; robust forensic anthropology unit; specialized expertise (full time neuropathologist, full time pediatric pathologist, part time cardiovascular pathologist)
North Carolina Office of the Chief Medical Examiner, Raleigh, NC	Janet Baranello, MD janet.baranello@dhhs.nc.gov	No preference	Coverage for bloodborne pathogen exposure if participating in autopsies	Central state office with oversight for the entire ME system in NC but serving the central 30 counties with a mix of urban and rural cases and abundant high yield and complex cases.
Saint Louis University/STL City Medical Examiners Office	Kanayo Tatsumi, MD kanayo.tatsumi@slucare.ssmhealth.com	No rotations in July and August	GME Application, Memorandum of Agreement between institutions, MO license (this can take up to 6 months to complete and they cannot rotate until it's received), ECFMG if applicable, proof of malpractice, CV, and WHO covid vaccination record. All of this has to be received in the GME office at least 60 days prior to the start of the rotation.	Despite being a small office serving a population of 300K, we have more than enough cases to sustain a fellowship program with a wide spectrum of case types. Attending scenes and trials, as time permits, are welcome; Participation in conferences and teaching students are encouraged. The experience level of the office range from 2 to 30 years. We are an inclusive, family and pet friendly office with 4 full time forensic pathologists and 15 full time staff.
Tarrant County Medical Examiner's Office, Fort Worth, TX	Stacey Murthy, MD slmurthy@tarrantcountytexas.gov	No rotations in July	Proof of Hep B vaccination and negative TB screen (or equivalent)	Full body x-ray, in house toxicology/histology/anthropology, many research opportunities, extensive community outreach programs
Washington, DC Office of the Chief Medical Examiner	Kristinza W. Giese, MD kristinza.giese@dc.gov	No preference	There will need to be a background check.	Lodox and handheld radiology device training (Air Ray and Mini C arm), will work with our Forensic Anthropologist and has an opportunity to observe forensic evidence processing with the Department of Forensic Sciences (in-house).
Wayne County Medical Examiners Office-Detroit,MI	Nicole Gula nszymanski@waynecountymi.gov	Prefer April, May, or August	Yes. The same requirements of any pathology resident (license, background check, insurance, etc. from their home residency program)	Scene investigation shadowing, testimony shadowing, lecture series, histology session
